0 sec   5   10   15   20   25   30   Never

☑ Always show cursor if moved

[Big Cursor For Mac Os X Sierra](#)

This is only available in Mac OS 10 4 (Tiger) and later versions; to do this for earlier versions of Mac OS X requires third-party software.. Step 1: Open the 'Universal Access' window Make sure you are in 'Finder' If necessary, press Apple + Tab to cycle through the open applications until you return to 'Finder'.. For keyboard access, make sure 'Full keyboard access' is turned on - you can turn it on or off by pressing Ctrl + F1 at any time.
